GOs & NGOs. Self-government to

implement the "Educational Pathway"

in the spheres of social welfare, health care,

legal support, rehabilitation sports, recreation,

leisure, etc.

The Main Objectives of "No Limits" Accessibility Services are:

- to gradually transform Lviv Polytechnic National University into barrier free educational space with real access to learning opportunities for persons with disabilities and chronic diseases;

- to intensify research and development to address the needs of persons with disabilities and chronic diseases;

- to carry out ongoing support of students with disabilities and chronic diseases;

- to identify and assess the University resources;

- to ensure linking with the external environment (including employers) on a regular basis;

- to establish and maintain close partnerships with universities, governmental and non-governmental organizations, associations, foundations and missions, including international representations, working in the field of social inclusion, inclusive education in particular;

- to disseminate information about the opportunities for higher education for persons with disabilities and chronic diseases, including available resources and services being developed at the University;

- to involve the community in solving problems of each student with disability(-ies) and/or chronic disease(s).

While performing the above tasks, "No Limits" Accessibility Services rely on the activities of the multidisciplinary team, which consists of a number of leading professionals of the University.

The Department of Sociology and Social Work of the Institute of Humanities and Social Sciences of Lviv Polytechnic National University provides the coordination of the multidisciplinary team activities.
