

Kraków, 25.05.2018

Dear Friends,

On behalf of the Organizing Committee, we are proud to inform that the *fib* Symposium 2019 “Concrete – Innovations in Materials, Design and Structures” will be held in Kraków, Poland, from 27th to 29th May, 2019.

The Symposium is dedicated to bringing together all the professionals in the concrete industry from all over the world. It will constitute an excellent forum for engineers, scientists, concrete technologists, researchers, academics and practitioners to exchange knowledge and share experience on current development in concrete technology and structural concrete design.

Considering the special historical relationships and co-operation between our countries in recent years, as well as the present situation, we have prepared exclusive conditions of participation in the Symposium for Ukrainian citizens affiliated at Ukrainian scientific institutions. For details, please visit the website www.fibkrakow2019.pl/regis_fees.html

The regular sessions of the Symposium will be organized into seven basic topics, including: Analysis and Design, Architecture, Materials, Prefabrication, Project Presentation, Structures, Sustainability and Durability. The detailed list is available on the website www.fibkrakow2019.pl/topics

The Scientific Committee looks forward to receiving your abstracts until 30 June, 2018. The guidelines for abstract preparation may be found on the website www.fibkrakow2019.pl/dates All papers of the participants under thirty-five will automatically enter in the Young Engineer Best Paper competition.

We invite all the professionals who have lately worked on an interesting project to share their knowledge and experience through a Project Presentation www.fibkrakow2019.pl/project

All practice engineers and researchers with PhD under forty are invited to enter the Achievement Award for Young Engineers Competition (www.fibkrakow2019.pl/aaye.html). The Award edition 2019 is organized with the patronage of Tadeusz Kościuszko.

All students are encouraged to enter the Student Competition “Make Concrete Alive”. The competition task is to design and prefabricate an object that has not been made of this material so far Elements can be made as reinforced (with different types of reinforcement) or unreinforced. The object should be durable, useful and functional in everyday life (e.g. mug,

plate, cup pad, ironing board, photo frame, etc.). For details, please look at the webpage www.fibkrakow2019.pl/students

The Organizers of the *fib* Symposium 2019 propose a number of sponsorship, exhibition and advertising opportunities, suiting all budgets, allowing to promote companies during the Symposium. The available sponsorship packages are presented at the Symposium website www.fibkrakow2019.pl/sponsors

In the search for detailed information please visit the website www.fibkrakow2019.pl or follow the link www.fibkrakow2019.pl/info-1

We would be grateful if you could distribute and propagate the information about the Symposium within your professional environment to all potential participants.

We hope to see you in Krakow,

Wit Derkowski
Chairman of the Organizing Committee
