Dear Researcher,

We invite you to submit manuscript(s) for publication. Our objective is to inform author of the decision on their manuscript(s) within weeks of submission. After acceptance paper will be published in the current issue within 24 hours. Please share this information to your friends, colleagues and faculties also...

All manuscripts are reviewed by the Editorial Board and qualified reviewers. Decisions will be made as rapidly as possible, and the journal strives to return reviewers' comments to authors within one weeks.

ResearcherID provides a solution to the author ambiguity problem within the scholarly research community. Each member is assigned a unique identifier to enable researchers to manage their publication lists, track their times cited counts and h-index, identify potential collaborators and avoid author misidentification.

Your ResearcherID information integrates with the *Web of Science* and is ORCID compliant, allowing to claim and showcase your publications from a single one account.

## Neural circuits underlying the pathophysiology of mood disorders

**Abstract:** Although mood disorders constitute leading causes of disability, until recently little was known about their pathogenesis. The delineation of anatomical networks that support emotional behavior (mainly derived from animal studies) and the development of neuroimaging technologies that allow in vivo characterization of anatomy, physiology, and neurochemistry in human subjects with mood disorders have enabled significant advances towards elucidating the pathophysiology of major depressive disorder (MDD) and bipolar disorder (BD). In this review, we integrate insights from human and animal studies, which collectively suggest that MDD and BD involve dysfunction within an extended network including the medial prefrontal cortex and anatomically-related limbic, striatal, thalamic and basal forebrain structures.

During the past few decades, the rate of publication retractions has increased dramatically in academia. In this study, we investigate retractions from a quantitative perspective, aiming to answer two fundamental questions. One, how do retractions influence the scholarly impact of retracted papers, authors, and institutions? Two, does this influence propagate to the wider academic community through scholarly associations? Specifically, we analyzed a set of retracted articles indexed in Thomson Reuters Web of Science (WoS), and ran multiple experiments to compare changes in scholarly impact against a control set of nonretracted articles.

Granger Causality test to investigate whether and how scientific topics are dynamically affected by retracted papers occurring within those topics. Our results show two key findings: first, the scholarly impact of retracted papers and authors significantly decreases after retraction, and the most severe impact decrease correlates with retractions based on proven, purposeful scientific misconduct; second, this retraction penalty does not seem to spread through the broader scholarly social graph, but instead has a limited and localized effect. Our findings may provide useful insights for scholars or science committees to evaluate the scholarly value of

### Abstract

During the past few decades, the rate of publication retractions has increased dramatically in academia. In this study, we investigate retractions from a quantitative perspective, aiming to answer two fundamental questions. One, how do retractions influence the scholarly impact of retracted papers, authors, and institutions? Two, does this influence propagate to the wider academic community through scholarly associations? Specifically, we analyzed a set of retracted articles indexed in Thomson Reuters Web of Science (WoS), and ran multiple experiments to compare changes in scholarly impact against a control set of nonretracted articles, authors, and institutions. We further applied the Granger Causality test to investigate whether different scientific topics are dynamically affected by retracted papers occurring within those topics. Our results show two key findings: first, the scholarly impact of retracted papers and authors significantly decreases after retraction, and the most severe impact decrease correlates with retractions based on proven, purposeful scientific misconduct; second, this retraction penalty does not seem to spread through the broader scholarly social graph, but instead has a limited and localized effect. Our findings may provide useful insights for scholars or science committees to evaluate the scholarly value of papers, authors, or institutions related to retractions.

### Основной поиск

Поиск записей по указателям системы. Все успешно выполненные операции поиска включаются в таблицу [История поиска](#). При создании поисковых запросов следуйте всем [правилам поиска](#).

На странице "Поиск" можно выбрать не более трех полей по умолчанию. В одном поисковом запросе можно ввести до 6 000 элементов.

При добавлении нового поля ко второму полю будет добавлен оператор AND. Оператор AND можно заменить оператором OR или NOT.

Обратите внимание, что пользовательские настройки будут применены ко всем базам данных продуктов, включенных в пакет подписки.

**Примечание.** Администраторы могут установить отображение от одного до трех полей поиска по умолчанию для всего учреждения.

---

### Число отображаемых полей поиска по умолчанию

Эта функция позволяет выбрать количество полей для поиска, которые отображаются в начале нового поиска. Всегда можно добавить дополнительные поля для поиска или можно удалить поля на странице поиска.

Можно выбрать следующее.

- Одно поле для поиска. По умолчанию используется поле "Тема". Всегда можно выбрать другое поле для поиска.

### Язык интерфейса

Выбираемый язык интерфейса определяет язык, на котором будут выводиться инструкции и справочная информация на экране. Следовательно, поисковые запросы должны всегда вводиться на английском. Результаты поиска всегда выводятся на английском.

См. [Выбор языка интерфейса](#).

### Приоритет операторов поиска

Если в поисковом запросе используются различные операторы, поиск выполняется в соответствии со следующим порядком приоритета:

1. NEAR/x
2. SAME
3. NOT
4. AND
5. OR

### Unidentified Line in X-Ray Spectra of the Andromeda Galaxy and Perseus Galaxy Cluster

#### Abstract

We report a weak line at  $3.52 \pm 0.02$  keV in x-ray spectra of the Andromeda galaxy and the Perseus galaxy cluster observed by the metal-oxide-drift on (XGS) and p-n (PN) CCD cameras of the XMM-Newton telescope. This line is not known as an atomic line in the spectra of galaxies or clusters. It becomes stronger towards the centers of the objects, is stronger for Perseus than for M31, is absent in the spectrum of a deep "blank sky" data set. Although for each object it is hard to exclude that the feature is due to an instrumental effect or an atomic line, it is consistent with the behavior of a dark matter decay line. Future (now) detections of this line in multiple objects may help to reveal its nature.

At the top, there are navigation links for 'Web of Science', 'InCites', 'Journal Citation Reports', 'Essential Science Indicators', 'EndNote', and 'Publons'. The main header includes the 'Web of Science' logo, the text 'Додаткові бази' (Additional databases), and the 'Clarivate Analytics' logo. Below the header, there is a 'Search' button and a 'Select a database' dropdown menu currently set to 'Web of Science Core Collection'. A red box highlights this dropdown menu, with a blue arrow pointing to it from the text 'Додаткові бази'. Below the database selection, there is a search bar with the example text 'oil spill\* mediterranean'. To the right of the search bar is a 'Search' button, also highlighted with a red box and a blue arrow. Below the search bar, there are several search options: 'Basic Search', 'Cited Reference Search', 'Advanced Search', 'Author Search', and 'Structure Search'. A red box highlights these options, with a blue arrow pointing to it from the text 'Базовий Пошук у пристатейній літературі'. Below the search options, there is a 'TIMESPAN' section with a dropdown menu set to 'All years' and a date range 'From 1500 to 2017'. A red box highlights this section, with a blue arrow pointing to it from the text 'Часові проміжки Що передплачено'. To the right of the search bar, there is a dropdown menu for 'Topic' with a red box highlighting it and a blue arrow pointing to it from the text 'Додаткові поля пошуку'. The dropdown menu lists various search fields: Author, Author Identifiers, Group Author, Editor, Publication Name, DOI, Year Published, Address, and Organization-Enhanced.

Remote charging system for electric vehicles - uses power transmission unit that transmits energy beam to receiving antenna on vehicle roof in response to coded signal from vehicle and charges battery to predetermined level

Patent Number(s): WO9850996-A2 [Original](#) ; AU9872837-A ; US6114834-A [Original](#) ; US2004142733-A1 [Original](#) ; US6792259-B1 [Original](#) ; US7068991-B2 [Original](#) ; WO9850996-A3 [Original](#)

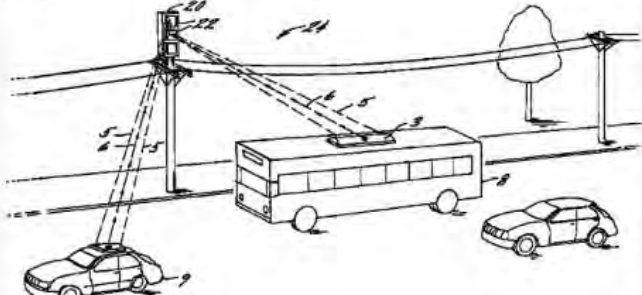

Inventor(s): PARISE R J  
Patent Assignee Name(s) and Code(s): PARISE R J(PARI-Individual)  
Derwent Primary Accession Number: 1999-810687  
Citing Patents: 313 Patents Cited by Examiner: 60

**Abstract:** The remote charging system is for use with a storage battery mounted in an electrically propelled vehicle and includes a pole mounted power transmission unit capable of transmitting electrical energy to the vehicle battery via a wireless energy beam. The vehicle has an antenna which receives the energy and transfers it to the battery.

The vehicle transmits a coded signal to the power transmission unit corresponding to the location of the vehicle and activates power transmission which locks onto the vehicle during the charging operation. The signal is transmitted until the battery reaches a predetermined level of charge.

ADVANTAGE-Eliminates vehicle emission problems, has minimum impact on existing streets, battery is kept charged, and vehicle is always in service.

The screenshot displays the InCites Journal Citation Reports interface. At the top, the title 'InCites Journal Citation Reports' is visible on the left, and the 'Clarivate Analytics' logo is on the right. Below the title bar, there is a 'Home' button and three utility icons (download, share, print). The main content area is divided into two tabs: 'Journals By Rank' (active) and 'Categories By Rank'. Under the 'Journals By Rank' tab, there is a search bar labeled 'Go to Journal Profile' with a magnifying glass icon. Below the search bar are several action buttons: 'Compare Journals', 'View Title Changes' (with a red notification icon), 'Select Journals', and 'Select Categories' (highlighted with a red box). To the right of these buttons is a table titled 'Journal Titles Ranked by Impact Factor'. The table has columns for 'Select', 'Full Journal Title', 'JCR Abbreviated Title', 'ISSN', 'Journal Impact Factor', and 'Average JIF Percentile'. The table lists 10 journals, with the top ones being 'CHEMICAL REVIEWS', 'NATURE MATERIALS', and 'CHEMICAL SOCIETY REVIEWS'. The 'Select Categories' button is highlighted with a red box, indicating the focus of the search.

### How It Works

With a few key pieces of information—your title, abstract, and references—we can help you find the right journal for your manuscript.

Our patent—pending technology analyzes millions of data points and citation connections from the Web of Science to identify meaningful relationships between these publications and your own citation data.

Within seconds, you'll have JCR® data, key journal information and publisher details at your fingertips to help you compare your options and submit your manuscript.

Only Thomson Reuters can harness the power of Web of Science to support your manuscript publication decisions.

## Природній добір журналу для публікації

- Регулярно читати визнані журнали за своєю темою!
- Налаштувати повідомлення про цитування і публікації в WoS

# Як опублікуватися в журналі проіндексованому у Web of Science?

- Проведіть актуальне дослідження (WoS Core Collection, ESI)
- Оберіть журнал Вашого профілю з Core Collection (JCR)
- Оформіть публікацію згідно вимог журналу (EndNote)
- Розмістіть інформацію про свої здобутки в Ваших авторських профілях (ResearcherID)

## Показники кваліфікації вченого

- Кількість публікацій
- Їхня якість (цитування) (індекс Гірша)
- Гранти
- Партнери

## Хто оцінює науковця?

- Керівництво (всі рівні)
- Грантодавці
- Партнери

## Чому складно оцінювати здобутки науковця?

- Важко вгадати варіації транслітерації прізвища
- Однофамільці – ускладнюють ідентифікацію, особливо якщо працюють в одній галузі і одній установі

Did you know you can associate your ORCID ID with your ResearcherID account?

I would like to create an ORCID record. The Open Researcher and Contributor ID (ORCID, Inc.) is a non-profit organization that aims to solve the author/contributor name ambiguity problem in scholarly communication by creating a central registry of unique identifiers. These identifiers can be used within various systems you may interact with in your professional research workflow, including manuscript submission, etc.

I already have an ORCID record. By creating an ORCID you will be able to link your ResearcherID account with this centralized registry. [Learn more about ORCID.](#)

No, thank you. If you choose not to get or associate an ORCID, you can do it at a later time.

To the right is a navigation bar with links for "FOR RESEARCHERS", "FOR ORGANIZATIONS", "ABOUT", "HELP", and "SIGN IN". A search bar is located at the top left of the main content area. The main heading reads "DISTINGUISH YOURSELF IN THREE EASY STEPS". Below this, a paragraph explains that ORCID provides a persistent digital identifier that distinguishes researchers and integrates with research workflows. The three steps are: 1. REGISTER (Get your unique ORCID identifier. Registration takes 30 seconds), 2. ADD YOUR INFO (Enhance your ORCID record with professional information and link to other identifiers like Scopus or ResearcherID), and 3. USE YOUR ORCID ID (Include your ORCID identifier on your webpage when submitting publications or applying for grants). On the right side, there is a "LATEST NEWS" section with two entries: "Tue 2018-02-13 More ORCID Outreach Resources!" and "Fri 2018-02-02 Building Community through Partnership - the ORCID US". #### What is ResearcherID?

ResearcherID provides a solution to the author ambiguity problem within the scholarly research community. Each member is assigned a unique identifier to enable researchers to manage their publication lists, track their Times Cited counts and *h*-index, identify potential collaborators and avoid author misidentification. In addition, your ResearcherID information integrates with the Web of Science and is ORCID compliant, allowing you to claim and showcase your publications from a single one.

The image shows a screenshot of a ResearchGate profile page for Iryna Tykhonkova. The profile includes a circular profile picture, the name "Iryna Tykhonkova", and the text "id 12.44 · PhD". Below the name are navigation tabs: Overview, Contributions, Info, Stats, Reputation, and Research Interests. The "About" section contains an "Introduction" and "Skills and expertise (39)". The introduction text reads: "Iryna Tykhonkova currently works at the Institute of Molecular Biology and Genetics, National Academy of Sciences of Ukraine. Iryna does research in Molecular Biology and Communication and Media. Their current project is 'Searching for affiliation name variants of NAS-U institutions.'". The skills listed are PCR, Cell Culture, Western Blot Analysis, and Academic Writing. On the right side, there is a section for "National Academy of Sciences of Ukraine" with details for Location (Kiev, Ukraine), Department (Institute of Molecular Biology), Position (Senior Researcher), and Title (Etil). Below this is a section "Are you part of a lab?". A blue "Add a new" button is visible, and a dropdown menu is open from it, listing various content types: Book, Chapter, Code, Conference Paper, Cover Page, Data, Experiment Findings, Method, Negative Results, Patent, Poster, Preprint, Presentation, and Project.

## Вебінари російською з 23 березня

Серия 1: Информационные инструменты для авторов научных публикаций

- **Подбор актуальных источников для написания научной работы (Web of Science)**
- **Оформление статей по ГОСТу и требованиям международных журналов (EndNote Online)**
- **Создание персонального авторского профиля в Web of Science (ResearcherID)**
- **Поиск и анализ научных журналов с импакт-фактором (Journal Citation Reports)**

Серия 2: Информационные инструменты для анализа научной деятельности

- **Эффективные техники поиска и анализа информации в Web of Science**
- **Создание и поддержка профиля организации в Web of Science**
- **Работа с международной патентной информацией (Derwent Innovation Index)**
- **Профессиональная оценка публикационной активности (InCites)**

Серия 3: **Практические рекомендации по публикации в международных журналах**

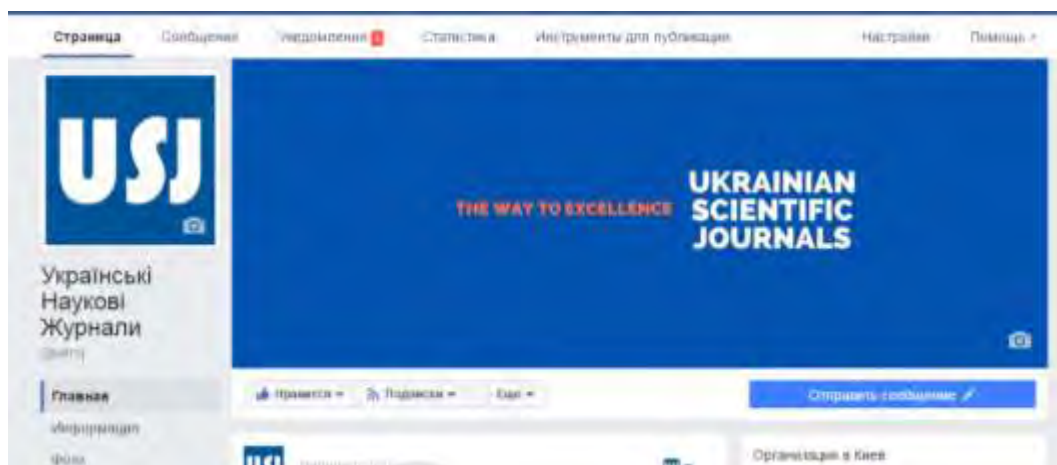

- **Как избежать публикации в недобросовестном журнале**
- **Основные требования к публикациям в международных журналах – ч. 1 и 2**

## **Тема: Пошук і аналіз наукової літератури в Web of Science.**

**Тези:** Базові та розширені можливості пошуку. Комбінування фільтрів і тегів, пошук у пристатейній літературі та схожих записах. Оцінка обраної вибірки, звіти по цитуванню, збереження результатів. Додаткові бази на платформі.

## **Тема: Підбір та аналіз наукових видань для публікації власних досліджень.**

**Тези:** Як підібрати видання для публікації? Про що говорить імпаکت-фактор, квартиль і інші показники в Journal Citation Reports. Скільки коштує публікація? Чи можна опублікуватися в міжнародному виданні безкоштовно? Як оформити перелік літератури? Хто створює хижацькі видання як не стати їхньою жертвою. Як перевірити куди мене запросили публікуватися?

## **Тема: ResearcherID та EndNote – генеруємо публікаційні звіти з радістю.**

**Тези:** Складнощі у пошуку і аналізу здобутків науковця. Авторські профілі ResearcherID та ORCID, чому вони мають бути в актуальному стані, що показують колегам і як заповнити їх без проблем. Гра з метаданими та як створити звіт за публікаціями свого відділу.
